My name is Chase, and I am a graduate from West Virginia University with a Bachelor's Degree in Computer Engineering. I am a Full Stack Software Developer with experience in building full stack web applications. I have a lot of experience in Spring Boot/Angular from my time working at Revature, and some experience on personal projects using the .NET stack and React.

Professional Experience

Full Stack Software Developer

 Revature | March 2022 - October 2022

- Trained in all areas to learn how to create full stack web applications
- Worked on projects using Spring Boot/Angular with AWS within an agile team using scrum methodology

Rater

 Telus International | February 2020 - Present

- Analyze AI training data to improve search engine quality.
- Utilize online tools to provide feedback on text, web pages, images, videos, and other media.
- Work under a strict time constraint to complete tasks efficiently.

Education

Bachelors of Science in Computer Engineering

 West Virginia University at Morgantown | August 2015 - May 2022

Key Skills

- Java (5 years)
- Javascript (2 years)
- HTML/CSS (2 years)
- React (1 year)
- Angular (1 year)
- C# (1 year)
- SQL (1 year)
